

## Ducted Units

### FEATURES

- Cooling & Heating
- Environmentally friendly refrigerant
- Concealed installation
- Multi-directional airflow
- Perfect comfort throughout the room
- Easy to use remote control
- Quiet operation

*Ducted Units are totally concealed, usually within a ceiling void. Cold or warm air is then ducted into the room providing uniform comfort throughout via discreet ceiling or wall diffusers.*

*Available in cooling only or heat pump versions and operated by hard wired remote control which can be located anywhere within the room enabling complete temperature, fan speed and operating mode adjustment.*
